

## LOCAL NEWS.

TUESDAY EVENING, JUNE 17.

For this section, generally fair, warmer weather, southerly winds, warmer than day.

**ALEXANDRIA ENTERPRISES.**—The healthy steady advance in city real estate during the past three years, the beautiful and attractive location of the city of Alexandria, its magnificent river front, railroad connections, rapidly growing commercial, manufacturing and residential advantages, are beginning to be fully appreciated by persons seeking safe and permanent investment. The very few cities in Virginia can today boast so many plants in successful operation, with a large pay roll, reaching, under the most conservative estimates, over \$500,000 monthly. We name some of these enterprises, the products of which are sold in several States, and the standard being recognized to be of the highest order: viz., the large cracker, cake and candy factory, the large mill, 2-shaft and blind factories, 2 large factories (one recently started for manufacturing U. S. mail boxes) 2 large fertilizer and chemical factories, with six mammoth warehouses for storage attached, 2 machine shops, 2 boiler shops, 1 large ship yard and ways, 1 small ship yard, 2 car yards, 3 corn mills, large flouring mill, 3 plaster mills, 1 pattern shop, 1 brick factory, 3 kindling wood establishments, 5 fish packing houses, car shops and 15 other factories, large gas works, 2 electric light plants, 4 banks, soapstone works, first class water works, 1 large tannery, increasing its capacity yearly, 15 cigar factories, the largest and best equipped market house building in the State, 25 saloons, with never ending trade, 2 carriage factories, 3 large furniture establishments, several foundries, 1 shoe factory, 1 head of a number of bakeries, tin workers, plumbers, gas fitters, etc. The above, with the aggressive spirit shown by the merchants, the firm and the cordial, hospitable character of the Alexandria people, should make this city a place of forty thousand inhabitants in the next decade.

**POLICE REPORT.**—Last night was cloudy and mild with two prisoners and one lodger at the station house.

The Mayor this morning disposed of the following cases:

James Phillips, arrested by officers Simpson and Howison, for being drunk and disorderly, was fined \$2.50.

Ann Kelly, arrested by officer Price for assault on a companion, was fined \$1.50.

Two white men, arrested by officer Simpson for fighting in the street were fined \$1.50 each.

Celia Jackson, colored, charged with assault, was discharged for want of evidence.

Enoch Cook, charged with stealing a horse and vehicle from Messrs. Patterson of the Pendennis Farm, in Fairfax county, was discharged, as the team, which Cook had taken to Washington, had been captured by Mrs. Patterson's friends and brought back to this city.

Several persons were fined for doing business without license.

Several professional men were before the Mayor this morning charged with doing business without licenses, and their cases were continued.

**REMOVED RESIGNATION.**—A special from Washington to the Richmond Dispatch says: "It is rumored here that owing to ill health Colonel Peyton Randolph, general manager of the Richmond and Danville system, will resign soon; that Mr. Green, the general superintendent, will succeed him as general manager; that Mr. J. B. Thompson, superintendent of the Richmond Midland division, will be made general superintendent of the whole system, and that Mr. C. M. Burum, of Lynchburg, will succeed Mr. Thompson as superintendent of the Virginia Midland division. This report cannot be positively verified, but it comes from persons who claim to know the facts."

A reporter of the GAZETTE called at the general office of the Midland road in this city to-day to ascertain if the above was correct, but could not see Mr. Thompson, who was in Charlottesville. The other officers of the road said, however, that so far as they knew there was nothing in the report, and they did not believe it. General Manager Green left this morning for a trip over the road.

**RAID ON STUOLS.**—In clearing out the furniture in Green's factory preparatory to using it for the manufacture of shoes, a number of stools used at meals during the time the building was a military prison were placed upon the pavement. Several boys began eyeing them in a covetous manner as soon as they made their appearance, and one or two, more daring than the rest, made a rush for the pile and each picking up one started off at an accelerated gait down Prince street. The owner, however, put in an appearance simultaneously and gave chase in an endeavor to recover his property, but while pursuing the raiders several others of the same ilk, who had been witness of the incursion, made a rush for the stools and picking up several succeeded in making off in another direction with them. A considerable difficulty five of the stolen articles were recovered.

**PERSONAL.**—Mr. J. P. Agnew and family have gone to their country home in Fairfax county, below this city, to spend the summer.

Mr. J. E. Ryan, of Loudoun county, was in the city to-day.

Mr. Linden Kent, of Washington, was in the city to-day.

Information was received in this city to-day that Judge H. W. Thomas, of Fairfax, was extremely ill, he never having recovered from the effects of the wrong medicine, which was, by mistake, given him some ten days ago; also that his daughter, who has been ill for some time past, was growing worse and is not expected to live.

A telegram received to-day from Rev. Mr. Vance says his child is better.

**MUST SETTLE.**—The City Finance Committee had their annual settlement with the tax collectors last night, ascertained the latter's indebtedness to the city and directed that they deposit the amount of such indebtedness with the city treasurer by the end of this week, in order that the books may be closed and the annual statement of accounts be submitted to the meeting of Council on Tuesday night next. The collectors, of course, will have to collect all outstanding tax bills during this week.

**STREET WORK BEGUN.**—The work of improving Ward 4 and street was begun this morning by Messrs. Newby and Snodds, the contractors, who will push the work to an early completion. The earth being removed from the street in the grading is being deposited in the Lee school building lot which will thus be raised to the grade of the street. The paving will soon be begun.

**I O O F.**—Grand Master N. F. Larabee, of Hampton, Va., who is connected with the local press of that town, was in the city to-day and called at the GAZETTE office this morning. He was en route to Frederickburg where he will pay an official visit to Myrtle Lodge, No. 50, to-night. He will return to this city and visit Potomac Lodge, No. 38, on next Friday night.

**THE RAILROADS WILL HAVE TO PAY.**—The Court in General term in Washington yesterday Judge Cox rendered the opinion in the case of T. W. Jones against the Alexandria Railroad Company et al., and C. P. Stewart against the same. The complaints were postal clerks, who were injured in the collision at Four-Mile Run, February 19, 1885, when a Virginia Midland passenger train and a freight train came together and several persons were killed. Suit was brought against the Pennsylvania, the Baltimore and Potomac, the Alexandria and Washington, the Alexandria and Frederickburg and Virginia Midland railroad companies, and verdicts were found in favor of the last named road and for the plaintiffs against the other roads for \$15,000 and \$10,000 respectively. The court said the evidence showed that the two tracks interlaced and there was an arrangement of automatic signals, but for some cause they did not work. The engineer of the Midland train saw the freight train, and supposing it to be stationary, put on all speed to make the double track, but failed and the trains came together. The theory was that all the companies were responsible that there was one management from Baltimore to Quantico. The case came up on exception—sixty-four bills—and the principal point made was that they were all responsible. The court held that the decisions of the court below in the case were in accordance with the law, and the decision was affirmed.

**FELL FROM A TRAIN.**—Pierre Angelo, of this city, a fireman on the Manassas branch of the R & D R R, this morning fell from his engine near Front Royal and broke his ankle and his collar bone. He was taken to Front Royal, where he received surgical attention and where his father was summoned to his bedside.

**A STEAM PILOT-BOAT.**—The Virginia Pilots' Association, which includes all of the pilots who work in Chesapeake Bay, have contracted for a steam pilot-boat to be 130 feet long, 22 feet beam and 15 feet depth of hold. She will be built of iron, and will have powerful compound engines with cylinders 22 and 40 inches in diameter and 26 inches stroke, and will be schooner-rigged, with a flush deck. When completed she will be one of the few steam pilot-boats in the world. Virginia pilots have become tired of sailing craft and look upon them as practically useless, and have taken steam as the most efficient, and, in the long run, the cheapest.

We were able to secure from the importer in New York last week a hogshead of VIENNA CHINA TEA SETS at a greatly reduced price, which invites you to call and examine during the coming week. There are two shapes, and you will have to come early if you want to get the prettiest. You will be surprised to find how very cheap they are, and if you contemplate buying a set do not put it off, as you may not have such an opportunity again soon.

## LOCAL BREVITIES.

The remains of the little child of Mr. J. T. Cox, who died on Saturday, were taken to Spring Grove, Caroline county, for interment.

Some excitement was created on the street to-day by a "set-to" between a resident of Fairfax county and a merchant of this city, in which the latter was knocked down. The former said he had been insulted, and that was the only explanation he had to give.

The up-country telephone line is not in operation, nor has it been since Friday last, when the wires were prostrated by the storm of that day. The interruption causes some inconvenience to those who are in the habit of using this line of telephone.

Marriage licenses were issued in Washington yesterday to E. E. Sutherland and Rosa B. Sutherland, of Prince William county; John Harrington and Agnes M. Sweeney, both of Prince William county, and to Charles T. Fauser and Maggie J. Catterton, both of Albemarle county.

## MONETARY AND COMMERCIAL.

**NEW YORK, June 17.**—The stock market this morning was, if anything, even duller than during the same time yesterday, and almost the entire list was off slightly from last evening's figures. No special feature was developed, and at 11 o'clock the market was dull and fairly steady at close to the lowest prices reached.

**BALTIMORE, June 17.**—Virginia 6s consolidated 54; 10-40s 43 1/4; do 3s —.
